

**Design in
Mental Health**
CONFERENCE | EXHIBITION | AWARDS

7-8 June 2023
Coventry Building Society Arena

Organisers' Statement of Attendance

Design in Mental Health is the only event in the UK – and possibly the World – focussed on the built environment for mental health.

The two-day Conference and Exhibition supports and drives excellence in the sector through informing, inspiring and bringing together a motivated audience of professionals, who are responsible for the whole spectrum of designing, building, maintaining, and managing environments for mental healthcare.

The overall attendance at Design in Mental Health 2023 totalled 1,290 visitors, delegates, speakers and exhibitors.

This was a record attendance and an increase of 18% on 2022, the previous record year.

47 NHS Trusts were represented, with professionals from operational functions (e.g. Directors of Estates Facilities and Capital / Directors of Operations) and clinical functions (e.g. Directors of Nursing / Clinical Directors) in attendance.

The growing international appeal of the event was evidenced by the presence of delegates from eight countries outside the UK, including multiple attendees from the USA, Australia, and New Zealand.

The Conference delivered 38 presentations and workshop sessions over the two days. On average, delegates attended 70% of sessions available to them.

Quotes

Praise for Design in Mental Health

“Design in Mental Health 2023 was fantastic. Our team thoroughly valued and gained a huge amount of insight from delegates of the conference and visitors on key design considerations when manufacturing pre-fabricated washroom products for mental health care construction. Everything from calm and comfortable colour choices through to material choices for robustness. Very valuable insights for us to continue developing and refining our range for the well-being of all in such environments.”

Trovex, 2023 Exhibitor

“Another great year at DiMH. The conference continues to grow from strength to strength and I look forward to 2023. I think Manchester will be a more accessible venue and hopefully encourage more to attend.”

Director of Estates, Facilities and Capital Development, Tees, Esk and Wear Valleys NHS FT

“Very friendly and open event with lots of great conversation.”

Global Concept Developer Healthcare, Saint-Gobain Ecophon

“It was great to experience not only the innovative products entering the market, but also hearing from users of the spaces to get a full 360 degree of knowledge for designing mental health spaces.”

Creative Design Lead, Health Spaces

“A welcoming and friendly event. An excellent opportunity to improve knowledge and network.”

Capital Planning and Property Manager, Black Country Healthcare NHS Foundation Trust

“Once again the Design in Mental Health team have delivered an exceptional conference and exhibition showing the best that the relevant sectors had to offer.”

Framework Manager, Tillbury Douglas
